

~~CONFIDENTIAL~~

APR 19 1954

MEMORANDUM FOR: Acting Deputy Director (Administration)

SUBJECT: Proposal to Reorganize Nuclear Energy Division,
Office of Scientific Intelligence

1. The attached proposal (Annex A) has the concurrence of the Assistant Director for Personnel (Annex B) and of the Budget Division of the Comptroller's Office (Annex C).

2. The Office of Scientific Intelligence proposes to reorganize the Nuclear Energy Division along functional rather than geographic and functional lines, as at present, and to transfer two T/O slots and two ceiling slots from Applied Science Division to Nuclear Energy Division. The T/O slots to be transferred are classified as: Intelligence Officer (Physical Science), GS-0132-09, T/O slot numbers E179 and E179.01. A functional organization for Nuclear Energy Division would be consistent with the volume of work handled and with the unilateral nature of its field of interest.

3. In his concurrence, the Assistant Director for Personnel has proposed several classification changes in the proposed reorganization, and these have been approved by OSI. OSI has indicated the availability of funds to accommodate the re-classifications.

4. It is recommended that the OSI proposal, as modified by the proposal of the Assistant Director for Personnel be approved.

SIGNED

Chief, Management Staff
